## XENIX REFERENCE CARD (RUN-TIME SYSTEMS)

### Logging In

login: robert<CR>

-or-

login robert<CR>

### Password

password\_\_\_\_\_<CR>

(The password doesn't show)

### Logout

<Control D>

-or-

login (different name)<CR>

### Interrupts

<Control D><CR>

-or-

<Rub Out><CR>

-or-

<Del><CR>

### Shutdown

#### Business Shell Shutdown

login: admin<CR>

Select "Shutdown" on menu

Enter number of minutes to

Shutdown

#### UNIX Shell Shutdown (Multiple Users)

login: root<CR>

Enter /etc/shutdown<CR>

Enter number of minutes to

Shutdown

#### UNIX Shell Shutdown (Single User)

login: root<CR>

Enter sync<CR>

/etc/haltsys<CR>

## Utilities

### B

bsh Business Shell

### C

cat Display a file  
cd Change directory  
chgrp Change file group identification  
chmod Change mode  
chown Change file ownership  
cp Copy a file

### D

date Display and set date  
dd Convert, copy a file  
df List free blocks  
du Summarize disk usage

### E

echo Echo arguments  
ed UNIX editor

### F

fcopy Copy diskette  
find Find files  
format Format diskette  
fsck Check and repair files

### K

kill End a process

### L

layout Configure hard disk  
ln Make a link  
login Sign on  
lpr Line printer spooler  
ls List files of current directory
